

# Stockton Police Chaplaincy

## 17th Annual Friend Raising Dinner & Celebration

### Introducing our evenings speaker Brandy Krueg!

Brandy Krueg has spent 26 years entrenched in social work of various capacities, the last 10 of which were focused in counseling first responders. After having a significant critical event in her late 20's and working over 15 years investigating child abuse, collaborating with various law enforcement agencies she came to some life changing moments about first responder care and mental health that now drives her professionally.

Brandy is determined to see a time where agencies truly support the mental health of their staff to include dispatch, evidence technicians and non-sworn personnel. She will be sharing with us her incredible story and her goal to provide culturally competent care for members of the Stockton Police Department as she joins our team of resources.

Come along side us and support the mission of the Stockton Police Chaplaincy:  
"To respond to and provide spiritual support to Law Enforcement personnel and their families,  
building interpersonal relationships for life situations or crises."  
The funds raised from our annual Friend Raiser will further the work of the Chaplaincy.
